## RELEVANT WORK EXPERIENCE

2014 - 2022

*Kandil Consulting LLC, Norfolk VA — Freelance and contract work for clients and technical recruiting agencies*

2014 - present

I contribute management, development and design work for web and administrative projects.

*inMobi, San Francisco CA — Innovation design, javascript and webkit development, app and user experience consultation*

2012 - 2013

I worked with a start-up that produced web-based 3D and animated components for marketing and advertising products that was eventually acquired by the Microsoft Corporation.

*Silver Search Inc, Paramus NJ — Full time front end development and UX consultation*

2017 - 2018

I worked with React JS to improve the architecture of an existing help desk enterprise application for ADP. My contributions included: CSS styles, creating builds using bat files, and improving usability.

*Just Works, New York NY — Full time front end development*

2017

I helped design and code the front end of a finance portal called Nectar Financial used by the investment firm, etops, based out of Switzerland and Czech Republic using AngularJS. I also used CSS, HTML and UX tools.

*TekSystems, Baltimore MD, Norfolk, Chesapeake and Reston VA — Freelance front end development*

2015 - 2017

Front end development for Under Armour and Booz Allen Hamilton using jQuery, JavaScript, Sharepoint and Node JS.

## MOST RECENT EDUCATION AND TRAINING

1994 - 2008

*Georgetown University, Washington DC and Arlington VA — CPD Program, Center for Professional Development*

Completed 200 hours of study and hands-on training in full stack web development.

*George Mason University, Manassas VA — IT Engineering, Web Development*

Included 1 year of study at NOVA campus. I completed 2.5 years of study with a 4.0 average.

*Virginia Commonwealth University, Richmond VA — Communication Arts and Design, Electronic Media*

I studied electronic media, graphic design, film and photography, Internships included FOX-35 and G-Men Productions in television, performance and 3D animated graphics. I graduated with a 3.9 average.

## FREELANCE PROJECTS

2017 - 2022

### *BG and Zero Day Nutrition — Freelance design and web development for supplement brands*

WordPress design and development including Woo Commerce, AWS and payment integration. I also created brand and concept art, including 3D renderings, of demo product lines.

### *Fahrenheit IT — Freelance design and product for Anthem website*

I served as an advisor for UX and brand management. I also implemented the use of modern design and prototyping tools.

### *DalyaKandil.Me — Web design, JavaScript coding and WordPress CMS development*

I implemented the portfolio website for my own freelance design company, Kandil Consulting LLC, a licensed, insured and registered sole proprietorship based out of Norfolk, VA mostly operational since 2014.

*Additional information on past professional work will be provided upon request.*
